

SUPER EASY CRINOLINE:

Measure your doll's waist and multiply by 3 or 4 for your fabric width... the more you start with, the fuller your crinoline will be! Then decide how long you want the crinoline, and double it. Cut two pieces of crinoline fabric in the above size. Sew them together right down the middle.

Fold over at seam, and sew another seam, forming a channel for elastic.

elastic

Thread your elastic through the channel, stretch to fit your doll nicely, and pin in place. Sew up through all layers of crinoline, catching both ends of the elastic, and tada!! Crinoline!

If you want it more layered, just stagger your fabric before you sew the first seam!
